1.0 RATIONALE

Information and Communication Technology (ICT) is utilised in schools for learning, teaching and administration. The availability of such resources provides the opportunity for schools to help students develop their full potential. ICT provides significant educational value but can pose risks regarding safety, personal reputation and corporate reputation.

In accordance with the teachings of the Catholic Church, communication must reflect the highest standard of accountability and sensitivity to the dignity of the human person. 'Students need also to critique the influence of social, political and economic structures in Australian society from a Gospel perspective. Media and other instruments of communication are particularly important.' (Mandate, para 22) As such this policy forms a part of the school's overall Vision Statement:

"Our Lady of Lourdes Catholic Primary School seeks to offer an education enlivened by the life and teaching of Jesus Christ in a school community where the dignity of each person is valued, nurturing honour and respect for each other".

Therefore, students at Our Lady of Lourdes School will be encouraged to responsibly use ICT. If students do not follow school rules, it also can be harmful to us as we can access or send inappropriate material. As students in a Catholic school they must remember their responsibility to use ICT in a positive way to help live out our motto of "Honour is more Precious than Gold" and the School Values of: Belief, Harmony & Responsibility. We do this through our words and actions. Ultimately, their use of ICT must always be appropriate and respectful of other people.
